

MOKO SMART

Ultra-compact Fully waterproof

M4 Pro Asset Tracking Tag

The M4 Pro Asset Tag is a BLE radio transmitter contained in a small, waterproof casing. The tag is fully waterproof to allow for easy cleaning of all assets with the operations of hospital or personal medical equipment.

With a remarkable small profile, the tag can also be affixed easily on small, awkward spaces, such as scopes, infusion pumps or today's more compact equipments in hospital or raw materials in industrial.

It is, therefore, ideal for a number of industries that require asset tracking technology, such as medical, warehouse, logistics and industrial.

Key selling points

Ultra compact

IP67 waterproof

Replaceable battery

Lightweight

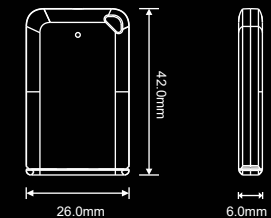

Ultra-long transmission range

General specs

Connectivity:	BLE 5.0
Dimensions:	40.2 * 28.2 * 6.0 mm
Color:	White
Material:	Nylon
Weight:	15g
IP rating:	IP67
Sensor:	Accelerometer sensor
Battery capacity:	220mAh Replaceable battery
Battery lifespan:	1 year (Location tracking mode ^①) 4 years (Presence monitoring mode ^②)
Operating temperature:	-20°C to 60°C

Transmission range ^③ :	Up to 160m – 1M PHY (Legacy) Up to 400m – Coded PHY (Long range)
Installation:	Sticker Zip Tie Lanyard
Certification:	FCC CE RoHS REACH Bluetooth

More than location

Healthcare

- Medical equipment utilization monitoring
- Faster positioning of medical equipment in emergency

Warehouse

- Raw material tracking
- Inventory control
- Theft prevention

Smart office

- Office furniture & Equipment tracking
- Asset presence detection for theft prevention

^① Adv interval = 1000ms, Standby duration = 0, Tx Power = 0dBm, without accelerometer sensor.

^② Adv interval = 1000ms, Standby duration = 8H, Adv duration = 10s, Tx Power = 0dBm, without accelerometer sensor.

^③ Transmission range tested in the open area and no obstacles in the route.
